stylish bathroom solutions
Built around you

Specialist Bathroom Solutions 2021

Sync Living are bathroom and home adaption experts. Founded in 1996, we work with trade professionals to provide specialist products and equipment right across the UK and Ireland.

We design solutions that work for everyone. We're a leading supplier of specialist bathroom equipment for elderly and people with restricted mobility. Our bathroom and living solutions help improve accessibility, prevent falls and future proof bathrooms for years to come.

We balance practicality with style. Our bathroom products

are designed to combine the support people need, with the aesthetics that complement the style of your home. With a wide choice of materials and finishes; we'll help you design the bathroom of your dreams.

We supply bathroom adaptations that work around you.

Service you can trust

Our friendly and knowledgeable team will help solve any queries you may have.

Showering

Shower Floors and Shower Trays

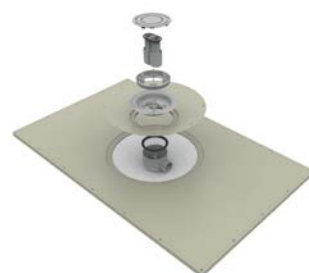

Our full range of 'Cleanse' shower trays are our most cost-effective solution. Designed with ease, comfort and safety in mind, and built to last a lifetime. Large range of sizes available to optimise available space.

LEVEL DEC TRAYS

Wet Room Floor Former Tray

Wet Room floor former trays act as screed floorboard replacements with a pre-formed gradient to a square or linear drainage point, which allows for the creation of a level access showering space.

- Suitable floor finish: vinyl or tiled
- Rotating Waste
- Trimmable
- No under-boardings required
- 22mm thick

Code	Dimensions (mm)
LDE1380	1300 x 800
LDE1010	1000 x 1000
LDE1580	1500 x 800
LDE8080	800 x 800
LDE9090	900 x 900
LDE1490	1400 x 900
LDE1212	1200 x 1200
LDE18590	1850 x 900
LDE1290	1200 x 900
LDE1512	1500 x 1200

WASTE OPTIONS FOR WET ROOM FLOOR FORMER TRAY

Vinyl floor waste

Slim gravity drainage for use with wet room floor former tray, when space under the floor is restricted and our standard waste is not appropriate. With a horizontal outlet, a choice of alternative grates are also available. Suitable for vinyl floor.

Model	Code
Standard Waste	STV
Slimline Waste	SLW1

Tiled floor waste

A high quality water trap featuring slimline waste. Complete with the 'Slot' standard stainless steel grate, suitable for floor tiles 6mm-26mm deep. Fits the wet room floor former tray for tiled floors, minimum tile thickness 6mm. Long lasting finish.

Model	Code
Standard Waste	STT
Slimline Waste	DSS7/H

LEVEL ACCESS TRAYS

Level Access Tray

Designed to sit just below the floor level, to allow trip free access perfect for wheelchair or shower chair users.

- 5mm lip
- Anti-slip base
- Water tight seal
- Support load: 60 stone
- Gradient: 1:40
- Available in left and right

Code	Dimensions (mm)	Internal (mm)

Mixer Showers

Simple to fit and easy to use, mixer showers mix hot and cold water supplies together manually. Thermostatic control ensures the water doesn't get too hot. Stylish designs to fit your dream bathroom.

Elina TMV3 Inclusive Bar Mixer Shower

Thermostatic bar mixer shower with easy to grip and control. Tamper proof looped lever controls and clear flow and temperature markings for ease of use for all users with varying needs and abilities.

- Thermostatic Temperature Control
- Open Outlet Flow Rate: 5.3 l/min at 0.1 Bar
- Maximum Flow Rate with flow limiters fitted: 12l / min
- Automatic shutdown & adjustable max temperature stop
- Separate flow and temperature controls
- Chrome finish

Code

T-Elina

Eden TMV2 Concentric Mixer Shower

The Eden's tactile controls are designed to allow easy use and complete flow and temperature control, complimented by a chrome shower riser rail kit and five spray pattern shower head.

- Can be fitted as exposed or built-in - both options available in one box
- Automatic shutdown safety feature should either the hot or cold water supplies fail
- Suitable for all pressure systems
- Surface mounting plate for easy installation
- WRAS approved for water supply regulations compliance
- Separate flow and temperature controls

Code

T-Eden

Bristan TS1503 Shower Valve - Concealed Or Exposed Options

Opac exposed shower valve, available in exposed or concealed option.

- Adjustable inlet centres from 148mm - 158mm
- Check valves and serviceable filters as standard
- Automatic thermostatic shutoff in the event of hot or cold water supply failure
- 1 year guarantee from Bristan covering manufacturing faults

Code

TS1503

Electric Showers

Electric showers have their own heating element meaning only a cold water supply is required. Features to ensure constant water pressure and temperature, for safe and comfortable showering.

Bristan Joy Care Shower

The Joy Care thermostatic electric shower takes into account the needs of the elderly and people with disabilities, without compromising on style or performance.

- Thermostatic feature keeps constant water temperature
- Illuminated on/off button shows when desired temperature is reached
- Visually impaired users benefit from raised markings, larger letterings, and audible bleeps
- Maximum temperature setting to prevent accidental scalding
- Easy fit with multiple water inlet and electrical entry points
- Available in 8.5kW & 9.5kW options

L 1500mm or 1700mm, W 750mm, H 685mm

Rio Bath

There is an extra large open area under the Rio bath, which allows all types of floor hoists to be used. The bath has an adjustable height, for ease of transfer in and out of the bath, and for the comfort of carers. An anti-trap system is fitted as standard.

- Adjustable height enables bath to be raised/lowered 30cm, with anti-trap system
- Open area under the bath allowing space for hoists to be used
- Left or right hand model available to fit bathroom orientation
- Floor and ceiling hoist access

Dimensions (mm)
L 1695mm, W 755mm, H 700mm - 1000mm

Bathing Accessories

Bath Lifter

Powered plastic reclining bath lift that is comfortable and supportive. Modular and portable two piece fits most shapes and sizes of baths. Folds flat for easy storage

- Easy to clean and maintain
- Audible bleep and warning light when battery requires charging
- Sucker feet can be angled in any direction to suit the curvature of the bath.
- Max user weight: 140 kg

Code	Dimensions (mm)	Weight
BL-RIV	Seat: 510mm x 380mm Backrest: 615mm x 355mm Height Range: 75mm - 455mm	Seat: 7.3kg Backrest: 4.7kg

Bath Board

This strong and comfortable bath board is a great support solution for users who have difficulty climbing in and out of the bath.

- Rubber pads prevent board slipping on bath rim
- Slats fully sealed against ingress of water
- Corrosions resistant stainless steel fittings

Code	Dimensions (mm)
VR116	W 26" (660mm) x D 227mm
VR117	W 27" (685mm) x D 227mm
VR118	W 28" (710mm) x D 227mm

Bath Seat

This comfortable and sturdy bath seat is a great solution for users who have difficulty lowering and raising oneself whilst bathing.

- Slatted for easy drainage
- 4 strong suckers hold bath securely in position
- Max user weight: 190kg

Code	Dimensions (mm)
VR127	Seat Size: 450mm x 290mm Footprint: 345mm x 300mm Height Options: 26" (660mm), 27" (685mm), 28" (710mm)

Bath Cushions and Supports

A range of cushions and supports that deliver a comfortable bathing experience.

- Shaped cushions that form around the body
- Inflatable bath cushions for head
- Rigid supports for head, back and knees

Air Spa and Lighting Systems

Air spa and lighting systems are available as extras on all our walk in baths and powered baths. Hydrotherapy air spas deliver a gentle massage to bathers; soothing aching muscles and helping to relax. Multi-coloured LED chromotherapy systems visually enhance the bathing experience.

Toileting

Solutions for those who wish to maintain independence and retain privacy in the bathroom. Functions of a conventional WC can be combined with bidet washing, warm-air drying, lifting assistance and more.

Automatic Toilets

Geberit AquaClean Mera Care

The Geberit AquaClean Mera Care is designed with comfort and convenience in mind. Combines all the functions of a conventional WC, bidet washing, and the comfort of warm-air drying. Offering total control with the highest hygiene standards, the wash and dry cycle can be easily activated through the push button control panel, by remote control or hands free sensor.

- Oscillating bidet spray arm with adjustable settings
- Continuous flow heater for constant warm water
- Warm air-dryer
- Automatic flushing via user detection

Dimensions (mm)

W 400mm, H 970mm, Seat Height 425mm - 560mm adjustable at installation

Bio Bidet

All-in-one toilet seat, bidet and dryer. Toilet top system that fits to most standard toilet pans. Remote control to activate and adjust temperature & pressure.

Closomat Palma Vita

The Closomat Palma Vita combines a conventional WC with integrated washing and drying. It is specifically developed for elderly and disabled people to properly support the user. Hands free action for automatic flushing, washing and drying decreases level of contact and contamination.

- Warm water washing and warm air drying
- Simultaneous flushing and washing
- Safe working load 190kg. Bariatric model max load 362kg
- Accessories available including plinth and support arms

Dimensions (mm)

W 451mm, H 869mm, Standard Seat Height 445mm

Comfort Height Toilets

Comfort Height Toilet - Spatula Lever

Comfort Height Toilets are designed to make life a bit easier by giving an extra 2 inches of height to the toilet. This relieves the user of pressure on knees and joints when getting on and off the toilet, with a higher and less demanding seating position.

- Spatula lever to flush
- Ceramic white finish
- Doc M compliant
- White or blue seat option

Code	Dimensions (mm)
BP-Wareset	H 460mm, D 750mm, W 360mm

Low Level Comfort Pan

A traditional low level style elevated pan with a choice of either a water saving 6/3 dual flush cistern or a 6 litre single flush lever cistern.

Code
LLP

Comfort Height Toilet - Push Button

Comfort Height Toilets are designed to make life a bit easier by giving an extra 2 inches of height to the toilet. This relieves the user of pressure on knees and joints when getting on and off the toilet, with a higher and less demanding seating position.

- Push button to flush
- Ceramic white finish
- Seating position of 465mm / 18 inches

Code	Dimensions (mm)
R-Wareset	H 465mm, D 655mm, W 360mm

Wash Basins

ABW6 Height Adjustable Wash Basin

The ABW6 height adjustable wall mounted wash basin has a 450mm high-low range, designed for users with special and progressively changing needs. It is operated by a simple handset control and the large lever taps, or infra-red touch free taps allow for unassisted use for those with limited arm movement.

- Mains electric height adjustment with battery backup
- Max load 300kg, to help wheelchair user sit & stand
- Large integrated mirror, light and shaver socket
- 750mm or 900mm basin width options

Code	Dimensions (mm)
ABW6	Height adjustable 580mm - 1030mm, W 750mm or 900mm, D 700mm

Swingline Height Adjustable Wash Basin

The basin can rotate and swing 180° making it flexible and movable. It also comes with easy height adjustment with 200mm range, which gives wheelchair users plenty of room beneath the basin. The flexibility of this basin means it is easy to access from all sides, for users and carers.

- Easy height adjustment by means of a handle
- 180° swing movement
- Available with or without wall mounted dock-in

Code	Dimensions (Basin & Wall Mounted Dock)
40-40071	Height adjustable 750mm - 900mm, Max W 1040mm, Max D 1133mm

Matrix Height Adjustable Wash Basin

This accessible wash basin has electric height adjustability, controlled by a lever at the end of a handle. The wash basin height ranges from 670mm to 970mm above the floor. The lever can be installed on either side of the basin, and can also function as a towel rail or for extra support.

- Lever controlled electric height adjustment with 300mm range
- Max load 150kg, to help wheelchair user sit & stand
- Single 36 mm tap hole, with or without overflow

Dimensions (mm)
Height adjustable range 300mm, W 600mm, D 660mm

Changing Tables

Electric Nivano: Height Adjustable Shower Changing Table

The Nivano changing table has a travel range of 700mm and can easily lift a patient up from near floor level to a convenient height for washing and changing.

- Suitable for use in wet areas
- Max user weight: 135kg or 220kg available
- All stainless steel construction
- Unit is wall fixed
- Protrudes just 220mm from wall when stowed

Code	Dimensions (mm)
HA-CTA-CTE	L 1200mm - 1900mm, D 920mm, H 200mm - 900mm, Cover Height: 1440mm

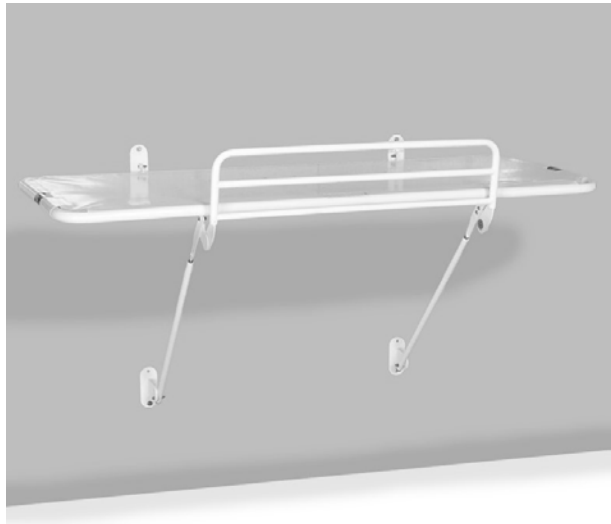

Manual CTM: Height-Adjustable Shower Changing Table

Where an overhead hoist or mobile hoist is used, a manual height adjustable changing table allows the carer to set the surface at the correct working height.

- Non-standard sizes available
- Stainless steel
- Durable non-rip HT vinyl material
- Easily folds away
- Built in safety mechanism to ensure bed cannot move when loaded
- Options: Guard and guard bumper; removable mattress

Code	Dimensions (mm)
HA-CTA-CTM	L from 1200mm - 1900mm, H 700mm - 1090mm, D 840mm

Wall Mounted Neatfold Stretcher

This wall-mounted neatfold stretcher provides a simple, space saving and economical solution to changing/showering requirements in environments with restricted space. The unique folding design can be stored and unfolded using just one hand.

- Non-rip high tension vinyl material
- Fixed height
- Max user weight: 130kg
- Part stainless steel construction
- Suitable for use in shower areas and wet room

Dimensions (mm)
L 1200mm - 1900mm, D 660mm

Homecare

Hoists

Ceiling Track Hoists

Overhead ceiling track hoists are undoubtedly the safest and most practical way to safely transfer clients from one surface to another. The track is installed at ceiling level, so the caregiver has increased access to the client and a greater lifting height.

- Single and multi-room track systems
- Loop type spreader bar as standard
- Safety features including emergency stop & powered lowering
- Safe max working load 130kg - 270kg

Mobile Hoists

Our range of mobile hoists offer the user a comfortable lift and transfer to beds, chairs, changing benches or even baths. These battery powered hoists require no installation, and can easily be moved from room to room - making them the perfect solution for everyday use.

- Lightweight
- Battery-powered
- Emergency stop, lowering and integrated charger
- Safe max working load 160kg - 250kg

Swimming Pool Hoists

Swimming pool hoists are installed poolside, and are suitable for public swimming baths, leisure clubs, private residences, and even small personal hot tubs. A range of designs suit manual operation with a hydraulic ram, or water-resistant hand control for independent user control.

- Reliable and durable
- Options of sling, headrest, leg rest, and chest strap
- Safe max working load 158kg - 272kg

Stairlifts

Straight Stairlifts

Straight stairlifts provide a safe and easy solution of climbing the stairs. No structural work is needed - the tracks fit directly on to stair tread.

- Safety sensors on the power pack and footplate
- Swivel chair for easy access
- Choice of seat colours available
- Clip seat belt as standard

Curved Stairlifts

Our flexible and user-friendly curved stairlifts can accommodate the most complex of staircases and can travel around 90° and 180° bends.

- Safety cut-out sensors for total peace of mind
- Manual swivel seat as standard
- Battery operation
- 2 handheld remote controls

Bariatric Equipment

The term Bariatric is a professional synonym for obese. For those living with obesity, a common problem is the loss of mobility, and everyday tasks including showering and bathing become more challenging. Sync Living supply specialist bariatric equipment which enables overweight users to maintain independent lifestyles in comfort and safety.

Bariatric Toilet Seats

A relatively simple and affordable, yet effective product to transform your bathroom. Bariatric toilet seats are extra wide, and give a larger seating area. The maximum user weight is 60 stone, and they are extremely easy to fit and secure to your existing toilet.

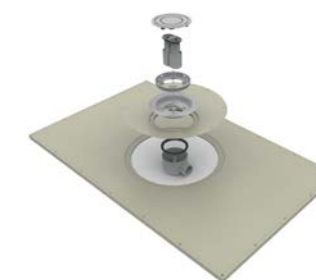

Automatic Toilets

The Geberit AquaClean Mera Care automatic toilet has a 30 stone max weight limit. It includes bidet and drying features, as well as automatic flushing, so that larger users can retain independence in the bathroom.

Extra Strong Grab Rails

Grab rails are available with higher weight limits. The weight capacity is ultimately dependent by the wall fixings, so ensure high quality installation!

Level Dec Shower Trays

Level Dec shower trays allow the creation of a spacious walk in shower. They sit below the floor, creating step-free access to the shower enclosure. We supply level dec shower trays up to a large size of 1.5m x 1.2m, giving plenty of space for users to manoeuvre around the shower.

Bariatric Shower Seats

Extra wide shower seats are available for larger users, and come with a high maximum weight limit of 190kg. Free standing shower chairs give a little more flexibility, as they can be removed from the shower area when not needed.

Changing Places

Sync Living have worked successfully with architects and contractors on commercial projects rights across the UK and island of Ireland. This includes the design and installation of many Changing Places facilities, which are fully accessible toilets and changing rooms used by the public.

They provide 12m² of floor space, and include equipment including a height adjustable changing bench, hoist, basin and toilet. This versatile equipment promotes well-being for both the user and their carers. The facilities are designed to enhance the health, safety, comfort and dignity of someone who may need extra support and additional equipment during personal care tasks.

Sync Living are a leading supplier of Changing Places all over Northern Ireland and Ireland, and we are proud to have installed Changing Places facilities for many leading organisations.

How to place an order
